and wellness options.

We're here to help.

What is Medicare?

Medicare is the federal health insurance program for qualified Americans aged 65 and older. Some people under 65 may also be eligible under certain health conditions, such as End Stage Renal Disease (ESRD).

This program offering is called 'Original Medicare.' You can enroll in Original Medicare (Part A & Part B) by contacting the Social Security Office.

Original Medicare

PART A: is your Hospital Insurance. It helps cover hospital care, skilled nursing facility care, nursing home care, hospice, and home health services.

PART B: is your Medical Insurance. It helps cover ambulance services, inpatient and outpatient mental health, clinical research, getting a second opinion before surgery, and durable medical equipment (like crutches).

*This is an advertisement for insurance sponsored by Eldercare Insurance. Eldercare Insurance is not endorsed or sponsored by any government entity. Not all plans are available in all regions.

People living with ESRD may be eligible to select a different type of Medicare coverage:

Medicare Advantage

Medicare Advantage (Part C) is an alternative to Original Medicare (Parts A and B) and may offer additional benefits. You can enroll in your area by calling Eldercare Insurance and speaking with one of our Licensed Medicare Agents.

Ready to Get Started?

Visit the Eldercare Insurance website today!

What to expect when you visit:

- A free, no-obligation consultation with a Licensed Insurance Agent about your current and desired Medicare benefits.
- An unbiased review of the best available plans in your area.

Medicare Prescription Drug Plans

Medicare Prescription plans (Part D) are a stand-alone prescription drug coverage plan. It can be added to Original Medicare or may be included in a Medicare Advantage plan.

Medicare Supplement Plans

Medicare Supplemental Plans can provide **additional Medicare coverage to fill gaps from Medicare Part A & B.** These supplemental plans can help cover out-of-pocket expenses.
